Baroque Wedding Cake

with Fabulous Faux cake stand

In this all new class students will learn how to make this beautiful gilded baroque style wedding cake complete with faux cake stand. Your cake will appear to be supported by this ornate "cake stand", but it's really just an optical illusion created with some common cake decorating supplies and decorated with molded gumpaste! Proper construction and support will also be covered.

Students will leave class with:

~completed dummy cake

~instructions and/or patterns

~the knowledge and materials to begin making this cake at home right away

All materials are included and tools are available for class use.
Just bring yourself and be ready to have a good time!
